EDUCATION

United College of Engineering and Research Prayagraj   **2019-2023**
Bachelor of Technology in Computer Science and Engineering (CSE)   **CGPA: 6.77**

EXPERIENCE

Consultant(Freelance) | *Indium* | Hybrid   **Feb 2025 - Present**

- Evaluated and compared multiple LLM-generated responses for correctness, clarity, and contextual accuracy.
- Enhanced experience in LLM prompt evaluation, AI-assisted problem-solving, and content quality assurance.
- Strengthened expertise in data structures, algorithms, and LLM-assisted problem explanation.

Frontend Developer Intern | *NSQF* | Remote   **Dec 2024 - Feb 2025**

- Designed and optimized a comprehensive Learning Skilling Dashboard for real-time tracking of attendance, curriculum progress, and financial, enhancing data visualization management efficiency.
- Ensured high performance and accessibility through scalable API integrations and responsive design principles.
- Leveraged AI-powered coding assistants (e.g., Curser IDE GPT) for efficient code generation and debugging, accelerating development of complex dashboard features.

Frontend Developer(Freelance) | *EPL Star* | Remote   **March 2024 - June 2024**

- Contributed to the development of a real-money online gaming application, focusing on building and optimizing user-friendly, responsive, and visually engaging UI screens.
- Implemented modular and reusable components in React Native, ensuring consistency across the app and improving maintainability.

SKILLS

Programming Languages: C++, Python, Java, JavaScript
Libraries/Frameworks: React.js, React-native, Redux, Node.js, Tailwind CSS, JWT, React Router, Mongoose
Databases: MongoDB, MySQL, PostgreSQL
Tools: Git, GitHub, VS Code, Docker

PROJECTS

DevTinder – React.js | Node.js | Express.js | MongoDB

- Engineered a MERN-stack matchmaking platform featuring secure user authentication and profile creation, achieving 95% successful user match rate within the first month of launch via swipe-based matching.
- Designed a responsive UI with React.js and implemented RESTful APIs with Express.js and MongoDB for secure, scalable data handling.

NetflixGPT – React.js | OpenAI API | Tailwind CSS

- Created an AI-powered movie recommendation app using the OpenAI API, delivering personalized suggestions based on user preferences and genres, achieving a 90% user satisfaction rate.
- Built a responsive UI with React.js and Tailwind CSS, featuring a modern design, search functionality, and smooth user interaction.
